

LARA CROFT TOMB RAIDER TEARS OF THE DRAGON

February 2006

FOR IMMEDIATE RELEASE

Tomb Raider: TEARS OF THE DRAGON World Premiere

A film tribute to Lara Croft made possible by fans from around the globe will premiere at CineSpace in Hollywood, CA. The project began back in November 2003 by Los Angelinos Nick Murphy and Valerie Perez (coincidentally this is the same time video game developer Crystal Dynamics began research to reinvent the character for latest game in the series due to come out in April 2006). Thanks to the internet, word quickly spread among the world wide Tomb Raider community leading many to contribute their talents and passion including the film's music composer Bekki Williams of Derbyshire, England and 3D artist Mark Garcia of Valencia, Spain.
